## HANDY SIDEKICK

HAND-EE-CLEAT \$59.95

← Need a cleat in a hurry? Hand-ee-Cleat is a portable cleat and hand-hold that can be temporarily affixed to docks, poles, pilings or other wood, concrete, PVC or steel objects. Hand-ee-Cleat allows you to put a cleat down where you need one without damaging the dock. It also provides a hand-hold to help guests getting off the boat. Constructed of glass-filled nylon, the Hand-ee-Cleat will secure a 30- to 40-foot boat and hold it in place in winds up to 30 mph.
